## 50 dead man walking cast

AMC's next *Walking Dead* spinoff, *World Beyond*, is meant to give us some more information about the mysterious group that took Rick Grimes in 2018 and serve as a bridge to his upcoming TWD films. I think this show leads us to the bigger picture of a connection to all three of the films, *World Beyond* star Nico Tortorella told Insider last November from the set of TWDWB in Richmond, Virginia. We only collect as much information as possible to where Rick is, Tortorella added. Does that mean the third TWD series will finally tell you where Grimes is in the expanded TWD universe? Maybe. While on the set of *World Beyond*, Insider asked some of the cast members their best guesses about where Rick might be. Most of them withdrew from an answer, but one of them surprised us by saying that they know exactly where Grimes is. Nicolas Cantu had the best theory of the cast we spoke to: He likes to think Rick's in New York City Nicolas Cantu plays Elton on TWDWB. Zach Dilgard/AMC Cantu said he first saw *The Walking Dead* when he was about nine with his father and has followed the show through recap videos. He thinks the CRM helicopters must have taken Rick somewhere important. What I think would be cool is if there's this huge, really big, big community just in New York City, Cantu said. Somehow they took over New York City and that's this lively utopia and that's where he is. That's what I think. It is not linked to any knowledge, Cantu added. Alexa Mansour said she honestly has no idea Alexa Mansour is playing Hope Bennett on TWDWB. Zach Dilgard/AMC I have no idea, Mansour whispered, admitting that she wasn't completely caught up on the entire TWD series when we spoke. I haven't gotten that far. I'm just on like season two, said Mansour, who plays Hope. I watched the first season when I was younger, but it gave me nightmares. I have no idea where Rick is. Annet Mahendru stayed tight-lipped about saying anything Sarah Shatz/AMC Mahendru is coming to the show from FX's *The Americans*, so she's used to keeping some tightly guarded secrets. She plays a security detail, Huck, for the Omaha community at *World Beyond* and kept coy when we asked where she thinks Rick might be. There are parallels and crossovers in some ways, but I'll let you figure it out, Mahendru said. Tortorella knows exactly where Rick Grimes is. Does Felix play a role in Rick's disappearance? He wears a jacket emblazoned with the CRM symbol. AMC If Tortorella really knows where Rick is, we might find out more about his whereabouts at the end of the limited two-season series. *World Beyond* debuts at AMC on Sunday, October 4at 10.m. You can follow our *Walking Dead* coverage here. *The Walking Dead: World Beyond* follows four teens searching for Researchers. Sarah Shatz/AMC *The Walking Dead: World Beyond* takes place a decade into the zombie apocalypse. The limited two-season series follows a new community, Campus Colony, in Omaha Nebraska. Unlike the two previous shows, *World Beyond* follows four teenagers — Hope, Iris, Elton, and Silas — who have largely grown up knowing a little outside the apocalypse. They refer to the dead who emptied have more or less been passed on with ordinary life (or as normal a life that one can have during the apocalypse). The series follows them as they break away from life inside the walls for the first time on a mission to find the Iris and Hope scientist father working with the mysterious Civic Republic Militia that we saw take Rick Grimes on TWD. Although on the set of the third TWD spinoff last November, Insider spoke with six of the leading actors on the show to learn what to expect from the third series. Before its premiere on October 4, here's what they told us about their auditions, landing a role on the show, and what you need to know about their characters. Aliyah Royale plays Iris Bennett, one of the main characters in TWDWB. Zach Dilgard / AMC Aliyah Royale was told that she was thrown on her way to see Stuber with her mother. We're in the parking lot about to get out and go into the movie and I get the call from my agent while we're still in the car, Royale said. Although excited, they decided to still go into the theater. They just got through the opening sequence. We were like, we're still going to go to this movie and just sit there and be calm, Royale said. We were in the cinema trembling. We couldn't stop moving. We were like, we have to go. We had to go to that Cheesecake Factory and talk about this. What you need to know about Iris:Iris is the daughter of scientist Leo Bennett, who is on some secret mission for CRM in a secret location. When she learns that her father may be in danger, Iris, someone who is usually at her best behavior, gathers together a small group to go in search of him. I like to describe her as a really good friend. She is very sweet, very loyal, [and] ready to do anything for anyone at any time. She doesn't have to know you, Royale said. She's always ready to give people the benefit of the doubt, Royale added. The eagerness to trust others can get the group in trouble. Royale said we'll see Iris cross a line several times that potentially puts people in danger. Alexa Mansour plays Iris' sister, Hope Bennett. Zach Dilgard/AMC Alexa Mansour was ready to throw in the towel with acting before TWDWB. I was ready to stop, Mansour said, aware that it sounded like a bit of a cliché. I was going to three auditions a day for months. So when you hear, she's fine, but she's not right for the role, you're kind of like, okay, I have to do something else. When the TWDWB audition came up last April, she took one of her sister's T-shirts without looking. When she noticed a penis on the tape she turned it inside out and continued. It's probably something I shouldn't have carried to an audition, Mansour said, humiliated. I was like, there's no way they're calling back. Two months later, Mansour received a call about a meeting with chief content officer of the TWD universe Scott Gimple and showrunner Matt Negrete. She didn't believe it. After a few more callbacks and tests with Royale, Mansour learned that she was given the role on July 3. The first thing I said was, yay, I can fix my windshield, Mansour said. What you need to know about Hope: Unknowingly, Mansour's audition shirt fits her character perfectly. Hope is such an angsty teenager who just doesn't give an s--- if anything or anyone, Mansour said of how different Hope is from her idyllic sister, Iris. Hope doesn't think she will live very long with how things are going in the world, Mansour said, adding that her character personality doesn't match her name. She doesn't have much hope so she just wants to have fun and do what she wants. On her way out into the real world forces her to get her to act together. Nicolas Cantu's Elton is probably the most well-dressed teenager in the apocalypse. Sarah Shatz/AMC Nicolas Cantu knew nothing about the story when he auditioned. When Cantu found out he was auditioning for the third *Walking Dead* show, he was really excited. Then he saw the material. When I saw the audition and it said TWD 3 my mind freaked out. But then, when I got the pages, it had nothing to do with the legit show, cantu says of the material he got to audition. I had to play this character and then they couldn't destroy any of the story elements. It was a very strange audition. After about a month of callback auditions, he finally got a call. Cantu said he was so ecstatic he jumped off the couch. What you need to know about Elton: Elton reminds us a bit of Eugene from TWD, just a little less odd and awkward. He's an orphan who hasn't had a family in a long time. Despite his loss, Cantu describes Elton as an old soul who is well-read and prepared for difficult situations. He grew up in this fortified community and he's kind of done all the studies he can do inside those walls, said Cantu of Elton. His quest is like to go out into the world and see how nature and these empties have affected how people live life outside the walls. Cantu also said that Elton knows karate. We're not sure if it's a good defense against the dead, but maybe it will come in handy against all the repulsive signs they face along the way. You might recognize Annet Mahendru from FX's *The American*. Sarah Shatz/AMC Mahendru was in Russia when she found out she was given the role. I was in Russia. I got on one of these tours while walking through the canals, Mahendru said. It was sunset. It was a magical moment. I got a phone call and I looked at my husband and I was like, like, I'm going to jump off this boat. That's the moment your life is changing in a really exciting way, Mahendru said that learning she was cast. And then we jumped off the boat. Mahendru was not so familiar with the TWD universe beforehand although she has seen a few episodes. She said she's usually the person who closes her eyes watching scary movies, so it's kept her on her toes while working on the spinoff. The walkers are so real, and on this show, they're even more intense, Mahendru said. So it's just been petrifying. I scream and constantly destroy shots. What you need to know about Huck:Mahendru said Huck is the exact opposite of her. Huck is a former Marine and is not afraid of anything. She rocks a pretty gnarly scar on her face. Her whole backstory before it's a little complicated and will be explained because she comes in with this [pointing to the scosity], Mahendru said. She's on a mission to repair the world and get it back to where it was, Mahendru added. She needs some people on board for that.
